2D shapes and maps

We have been learning the names of 2D shapes and how to describe them, we have also explored maps and aerial photos in geography. We have looked at the way buildings and fields take on a 2D shape when drawn or photographed from above.

On A4 paper or smaller, try drawing an aerial view map of a farm using 2D shapes.

Label your features, e.g. a rectangle might be a barn, a circle or oval might be a pond.

Remember to keep visiting **Mathletics**, new activities available every week!

2D shapes

We have been learning the names of 2D shapes and how to describe them, we have also explored where we can spot 2D shapes in pictures.

On A4 paper or smaller, try drawing a farm themed picture using only 2D shapes.

Remember to keep visiting **Mathletics**, new activities available every week!
