

Homework date: 22/03/18

Due in: 29th March

Homework updated on
class webpage

Outstanding Oak Class

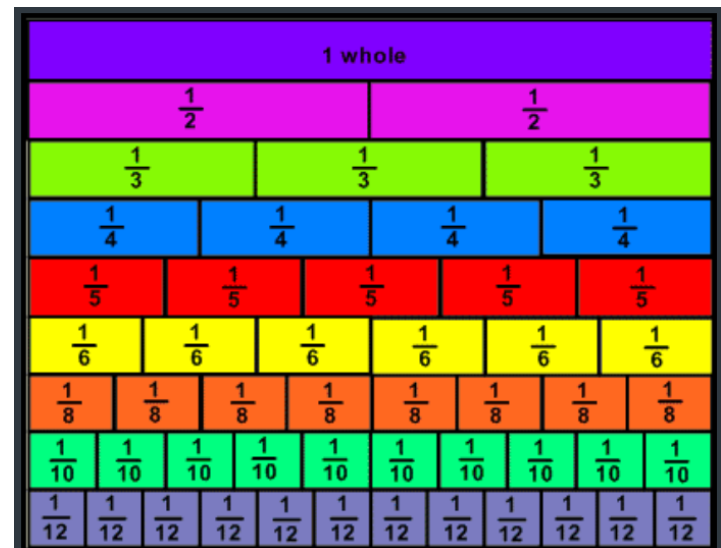

Apologies, as we were unable to email out the homework last week; each child was given a paper copy instead. WOW WOW WOW ! I loved looking at the fabulous meals designed and made this week! The children are presenting their homework to the class each week and it is so wonderful to see how creative and imaginative they have been. Children produced videos, took photos, wrote recipes, made diagrams and drew pictures.

Maths:

+1 Dojo

I want you to show what you now know about equivalent fractions. (EG. $\frac{1}{2}$ is the same as $\frac{2}{4}$ or $\frac{3}{6}$). Please challenge yourself to do trickier fractions if you feel confident. You can choose how to present it (poster, pictures, letter, leaflet, photos, models, video).

It would be wonderful if you can explain how you created the equivalent fractions - what did you do? Can you use mathematical language (numerator/denominator). As a challenge could you think about simplifying fractions (this is more for year 4). You are all so creative and imaginative; I can't wait to see what you produce!

+1 Dojo

Literacy:

Find the time to do some extra reading this week. We will be sharing your home reading books in class on Wednesday. Be prepared to tell the class what book your reading, how you are finding it and what's happening so far.

The Narwhal group- please also be prepared to recommend a favourite book to the class on Thursday. Please bring the book in!

Year 3 / 4 Spellings words (test on Wed 28th):

Opposite, ordinary, particular, peculiar popular.

Year 5/6 words:

Relevant, recommend, recognise, queue, pronunciation

Thank you so much for all your continued support, it makes a huge difference!

Mrs Habgood
